Voodoo dancing, wrestling in the backyard, post-traumatic stress disorder, and underground meth labs: welcome to Louisiana!

With "Bayou Bastards," authors Neyef and Armand drop their readers square in the middle of the Louisiana marshes, in a kind of swampland "8 Mile," or "Breaking Bad" shifted to the wild South. Luckily, there's the local music to save the day. And of course the guns: "Son of a gun, we'll have big fun oon the bayou."
