Goldorak (UFO Robot Grendizer), the cult cartoon series, symbolic of the generation that saw the rise of manga in France. Among its fans are Xavier Dorison and Denis Bajram, two giants of French comics working on an unusual project: to reveal what happened after the last episode of the cartoon. Several years have passed since Actarus and Phénicia left for Euphor. Life resumes its normal course until the day when, after crashing into Mount Fuji, the Hydragon, the most powerful robot from Vega ever constructed, heads towards the Japanese capital and causes chaos. With the population at the robot's mercy, its pilots enter UN headquarters. Their demand? That the inhabitants of Japan vacate the islands within a week. Following the destruction of their planet Stykhades, the people from Vega have chosen Japan as their new homeland. The countdown has begun...
