Chaosland, or how a group of atypical heroes set out to accomplish their crusade against evil! Clichés and conventions are debunked in this frantic and hilarious trance. Morrigan, the young and beautiful but hardly daring knight, the beautiful Elizabeth, the sorcerer Magic Jardak and their companions are preparing to face their fate, for better and mostly for worse. Detours taking crappy shortcuts, this merry group make their way towards the castle of the terrible tyrant of the SlvörghsHorn region: the bloodythirsty and despotic Jean-Luc! Will they succeed in persuing their delirium? An allegorical and satirical journey which makes many references to the native land of the Belgian author Ancestral Z.
