Michel Tanguy and Ernest Laverdure, otherwise known as the “Riders of the Sky,” are an inseparable duo who’ve been on the scene since the very first issue of Pilote magazine in 1959. The first is brave and rather reserved, and the second eccentric, boastful, and a bit of a heartbreaker. But despite his never-ending quips and silliness, Laverdure is the wingman Tanguy relies on when he gets himself into tricky situations. Adventure and espionage make up the day-to-day life of our two heroes who, on the ground or in their plane, manage always to maintain their unwavering patriotism.
