They are young, they come from the web, they are followed by hundreds of thousands of fans on YouTube and social networks, and they have revolutionized the way we laugh. From collectives such as Suricate or Good Monique, members of Golden Moustache or Studio Bagel, stakeholders of Dézapping before the appearance of Canal + solo artists, eleven of the most sought-after youtubers now tackle comics! Natoo (more than one million YouTube subscribers), Kevin Razy, Vincent Tirel, Jhon Rachid (460,000 subscribers), Marjorie Le Noan, Kemar (600,000 subscribers), Éléonore Costes, Bengui, PV Nova, Akim Omiri and FloBer, working with the illustrators that accompany them on the adventure, become themselves the characters and share their madness with us in this funny, geeky and quirky, collective album perfect for the summer!
