Antoine Velayne and Masao are among the finest swordsmen of Louis XIV's reign, until one day an alchemical bomb from the slums of Paris, or the 'Court of Miracles', strikes the nobility. Far more blood will spill in the coming civil war than in an honourable duel... Emmanuel Herzet (Centaures, Alpha Premières Armes) entrusts his script to Alessio Coppola. This imaginative 'alchemical' story in four volumes will delight lovers of swashbuckling swordfights, high adventure and esotericism.
