Crazy crimes, a budding romance, a sparkling new series! A postman dies of fright and is found, along with his moped, at the top of a tree? A plumber falls to his death from the ground floor? A lot of strange crimes seem to be going on in the Valley. Edwin has just arrived in this madhouse town, run by Dr. Meylaud. Egged on by the very attractive, and very extravagant, Valeria, Edwin will try and get to the bottom of this insanity with an even crazier investigation... Somewhere between the delirious ramblings of Monty Python and the old-school gags of Tex Avery, "The Valley" takes place in a world worthy of the best TV series, like an episode of "How I Met Your Mother"... Cluedo-style.
