The King of Énégaour earned his right to the throne by bringing back the legendary sword Zgangver. Unfortunately, he damaged it while swinging it at a piñata. So he brings it to Devane's father, the blacksmith Eriol, for repairs. When Devane, showing off to her friends Korwin and Nikki, draws the blade, it gets snatched away by a passing pterodactyl. Devane and her friends must set out to recover the sword at once.
