The year is 2122, Spain.

Azabache is an ex-convict turned copla singer (when she's not acting like an air girl). Despite herself, she finds herself on the trail of a serial killer.

The murders are just the tip of the iceberg in a conspiracy that goes beyond the young woman's own nightmares.

Azabache will discover the truth by delving into the victims' psyches and her own past!

## In this series

Le chant de la femme cryptée
