Educational

and off-beat but never preachy, Hervé Bourhis lays out the history of ecology,

from the dawn of humanity to the present, from the Stone Age to the Coronavirus Age. Rousseau, permaculture, hippies, Greenpeace, and Monsanto: all the issues, both big and small, pass through the Bourhis grinder. We get major dates and fun facts (some sad ones, too) from the ironic perspective and in the dynamic style of the artist

In this series

Le Petit Livre de l'écologie

Le Petit Livre Rock

Le Petit Livre Beatles

Le Petit Livre French Pop
