“Spirou & Fantasio” has become one of the most legendary comic book series in the Franco-Belgian tradition. Many of today’s top authors would love nothing more than to try their hand at bringing to life the pair’s adventures, and now they have the opportunity. This spin-off series offers the chance to a collection of authors to take the reins to create their own Spirou.

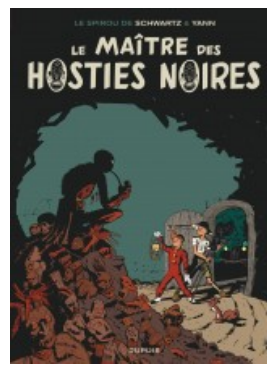

### In this series

Spirou chez les fous

Fondation Z

Le Maître des hosties noires

La lumière de Bornéo
