RELEASE 19/08/2024

In the kingdom of Tyriadoc, in the event of premature death, everyone is entitled to a second life known as "The Edra." Sometimes, death is so violent that rebirth becomes disastrous. This spawns Accursed Ones, monsters created in the very image of their own demise. Yet, there is one exception to the Edra: newborn babies. Too weak and too pure, none of them ever come back to life. None but Adalise, the King's daughter. She inspires fear and hatred in her people, who have nicknamed her "The Corpse Princess." But Adalise desires only one thing: to ¬find her missing mother and solve the mystery that enshrouds her stillbirth.
