Seeing as we are in a conquered country, we might as well help ourselves to their resources! This is what the Nazis think when they occupy Belgium, and they have an enormous need for funds to finance the occupation of the whole of Europe and the Eastern front which is dragging on. But the Belgians can see the Nazis coming and decide to entrust their reserves to France for safekeeping. France loads the gold onto a cargo ship bound for Africa. The gold finally arrives in Dakar but is then intercepted by the Germans, and the treasure is sent back to Germany by train.
