Soft footsteps move through the shade of the sun-dazed jungle. Without a sound, and without one word, the hunt is carried out in silence. For silence enshrouds the footsteps of the biggest predator of the land, a sleek and majestic killer: a magnificent tiger. Ever watchful, he's always on the look-out for his next prey. But unfortunately for him, the first catch of the day slips right through his claws. And that's just the beginning of the day's disappointments, because it looks like, for once, all the forest's norms have been turned upside-down. Today's the day for the oppressed to get their own back, and they're not holding anything back! It's not going to be a good day for the king of the jungle.
