Follow the adventures of the baboon Jack Mandrill and the gorilla Hammerfist in a world ruled by animals, brought to you by the uproarious duo of Pozla and El Diablo ("Les lascars," "Un Homme de goût," "Pizza Roadtrip").

It's 2254, in the city of Los Animaux. Human civilization is nothing but a distant memory, and the world belongs to the animals. Which surely means eternal peace on Earth, right? Wrong: it's survival-of-the-fittest in its most savage form, with barbaric acts of violence at every turn. In the middle of it all, Jack Mandrill the baboon and Hammerfist the gorilla are pulling out all the stops to defend their place at the top of the food chain. You've been warned: Los Animaux is no place for the faint of heart.
