Moscou année zéro is the renewed version of *Mort au tsar*. The diptych *Mort au tsar* bring us in Moscow at the beginning of the 20th century to shows us the story of Governor Sergei Alexandrovich's murder, both from the perspective of the victim (in volume 1) and of his murderer (in volume 2). In this new version, the authors have "reassembled" the stories of these two characters in one volume with parallel narratives: the result is a powerful and intimate political thriller.

In this series
