A contemporary story, set in a small town.

After disappearing 15 years ago, Max suddenly turns up again in Rosangella's life. Since they parted ways, Rosangella has struggled to pick up the pieces, rebuilding her life with her children. She manages an amusement ride, and has been spending more and more time with Jo, a calm, reassuring man who seems, like her, to have gone through painful experiences.

And then Max appears, using a celebration of a birthday as an excuse. But Rosangella suspects that the party will turn sour... because, behind Max's self-assurance, his true personality can be particularly brutal.

Rosangella is the simple story of a woman fighting to reclaim her life and her dignity.
