After her father's death, Sixtine lives alone with her mother and three pirate ghosts who take care of her. This leads to some complicated - and funny - situations. Torn between the desire to find out where she comes from and her fear of hurting her mother's feelings, Sixtine decides to adopt a risky plan in order to solve the family's money problems. Fortunately, she has hilarious friends - plus a lot of humor of her own - to help her through the adventure.
